About the event

The **National Girl Child Day** is celebrated in India every year on January 24. It was started by the Ministry of Women and Child Development and the Government of India in 2008, with the purpose to spread awareness among people about all the inequalities girls face in the Indian society and to bring change in the attitude towards girls.

National Girl Child Day aims towards promoting awareness about the rights of the girl child and to increase awareness on the importance of girl education, and their health and nutrition.

The Indian government has taken several steps over the years to change this and improve the conditions of girls. Several campaigns and programs such as Save the Girl Child, Beti Bachao Beti Padhao, free or subsidised education for the girl children, reservations for women in colleges and universities have been initiated to reduce this discrimination.

Wishes and Greetings:

- One of the best blessings I've at any point gotten is my little girl. Happy Day of Girls
- On the occasion of National Day of the Girls Child, let us recognize the rights of girls and also the problems they face around the globe to give them a better life, a better future
- National Day of the Girls Child reminds us that it is our responsibility to give them the importance they deserve and work together for their happier lives
- It has been a long the girl child has been discriminated against. It has been a long that they have been suffering. Let us get their honor back and make it a Happy National Day of the Girls Child
- The world will be a better place to live the day the girl child is as happy as the other gender... Let us work in synergy to make this dream come true. Happy National Day of the Girls Child.
- Don't think they are inferior because, in reality, they are superior. Happy National Day of the Girls Child.

About the event

The **National Girl Child Day** is celebrated in India every year on January 24. It was started by the Ministry of Women and Child Development and the Government of India in 2008, with the purpose to spread awareness among people about all the inequalities girls face in the Indian society and to bring change in the attitude towards girls.

National Girl Child Day aims towards promoting awareness about the rights of the girl child and to increase awareness on the importance of girl education, and their health and nutrition.

The Indian government has taken several steps over the years to change this and improve the conditions of girls. Several campaigns and programs such as Save the Girl Child, Beti Bachao Beti Padhao, free or subsidised education for the girl children, reservations for women in colleges and universities have been initiated to reduce this discrimination.

Wishes and Greetings:

- One of the best blessings I've at any point gotten is my little girl. Happy Day of Girls
- On the occasion of National Day of the Girls Child, let us recognize the rights of girls and also the problems they face around the globe to give them a better life, a better future
- National Day of the Girls Child reminds us that it is our responsibility to give them the importance they deserve and work together for their happier lives
- It has been a long the girl child has been discriminated against. It has been a long that they have been suffering. Let us get their honor back and make it a Happy National Day of the Girls Child
- The world will be a better place to live the day the girl child is as happy as the other gender... Let us work in synergy to make this dream come true. Happy National Day of the Girls Child.
- Don't think they are inferior because, in reality, they are superior. Happy National Day of the Girls Child.

About the event

The **National Girl Child Day** is celebrated in India every year on January 24. It was started by the Ministry of Women and Child Development and the Government of India in 2008, with the purpose to spread awareness among people about all the inequalities girls face in the Indian society and to bring change in the attitude towards girls.

National Girl Child Day aims towards promoting awareness about the rights of the girl child and to increase awareness on the importance of girl education, and their health and nutrition.

The Indian government has taken several steps over the years to change this and improve the conditions of girls. Several campaigns and programs such as Save the Girl Child, Beti Bachao Beti Padhao, free or subsidised education for the girl children, reservations for women in colleges and universities have been initiated to reduce this discrimination.

Wishes and Greetings:

- One of the best blessings I've at any point gotten is my little girl. Happy Day of Girls
- On the occasion of National Day of the Girls Child, let us recognize the rights of girls and also the problems they face around the globe to give them a better life, a better future
- National Day of the Girls Child reminds us that it is our responsibility to give them the importance they deserve and work together for their happier lives
- It has been a long the girl child has been discriminated against. It has been a long that they have been suffering. Let us get their honor back and make it a Happy National Day of the Girls Child
- The world will be a better place to live the day the girl child is as happy as the other gender... Let us work in synergy to make this dream come true. Happy National Day of the Girls Child.
- Don't think they are inferior because, in reality, they are superior. Happy National Day of the Girls Child.

About the event

The **National Girl Child Day** is celebrated in India every year on January 24. It was started by the Ministry of Women and Child Development and the Government of India in 2008, with the purpose to spread awareness among people about all the inequalities girls face in the Indian society and to bring change in the attitude towards girls.

National Girl Child Day aims towards promoting awareness about the rights of the girl child and to increase awareness on the importance of girl education, and their health and nutrition.

The Indian government has taken several steps over the years to change this and improve the conditions of girls. Several campaigns and programs such as Save the Girl Child, Beti Bachao Beti Padhao, free or subsidised education for the girl children, reservations for women in colleges and universities have been initiated to reduce this discrimination.

Wishes and Greetings:

- One of the best blessings I've at any point gotten is my little girl. Happy Day of Girls
- On the occasion of National Day of the Girls Child, let us recognize the rights of girls and also the problems they face around the globe to give them a better life, a better future
- National Day of the Girls Child reminds us that it is our responsibility to give them the importance they deserve and work together for their happier lives
- It has been a long the girl child has been discriminated against. It has been a long that they have been suffering. Let us get their honor back and make it a Happy National Day of the Girls Child
- The world will be a better place to live the day the girl child is as happy as the other gender... Let us work in synergy to make this dream come true. Happy National Day of the Girls Child.
- Don't think they are inferior because, in reality, they are superior. Happy National Day of the Girls Child.

About the event

The **National Girl Child Day** is celebrated in India every year on January 24. It was started by the Ministry of Women and Child Development and the Government of India in 2008, with the purpose to spread awareness among people about all the inequalities girls face in the Indian society and to bring change in the attitude towards girls.

National Girl Child Day aims towards promoting awareness about the rights of the girl child and to increase awareness on the importance of girl education, and their health and nutrition.

The Indian government has taken several steps over the years to change this and improve the conditions of girls. Several campaigns and programs such as Save the Girl Child, Beti Bachao Beti Padhao, free or subsidised education for the girl children, reservations for women in colleges and universities have been initiated to reduce this discrimination.

Wishes and Greetings:

- One of the best blessings I've at any point gotten is my little girl. Happy Day of Girls
- On the occasion of National Day of the Girls Child, let us recognize the rights of girls and also the problems they face around the globe to give them a better life, a better future
- National Day of the Girls Child reminds us that it is our responsibility to give them the importance they deserve and work together for their happier lives
- It has been a long the girl child has been discriminated against. It has been a long that they have been suffering. Let us get their honor back and make it a Happy National Day of the Girls Child
- The world will be a better place to live the day the girl child is as happy as the other gender... Let us work in synergy to make this dream come true. Happy National Day of the Girls Child.
- Don't think they are inferior because, in reality, they are superior. Happy National Day of the Girls Child.
